

HP ProLiant DL370 G6 and HP ProLiant ML370 G6 Servers

Data sheet

HP ProLiant DL370 G6 Server

HP ProLiant ML370 G6 Server

Enhance data center efficiency and get the best return for your budget with the new HP ProLiant DL370 G6 (4U optimized rack) and the next generation of the HP ProLiant ML370 G6 (4U expandable tower) servers.

Data centers have grown in size and complexity, and are characterized more by diversity than standardization. This means that your IT administrators have more on their hands than ever before. As they struggle to enhance data center efficiency they also need to rein in rising power costs.

The new HP ProLiant DL370 G6 and the next generation of the HP ProLiant ML370 G6 servers help strike that balance. HP Insight Control suite with the new Dynamic Power Capping technology can triple the capacity of the data center and tailor the power supply to the desired configuration. Talking about efficiency, both the HP ProLiant DL370 G6 and the HP ProLiant ML370 G6 offer the broadest line up of Intel's latest processors: Intel® Xeon® 5500 series delivering (in some instances) up to twice the level of computing performance. Additionally, the new HP ProLiant Onboard Administrator powered by the Integrated Lights-Out 2, offers features like simplified server set up, health monitoring, power optimization, thermal control, and remote management.

Key features and benefits

The new HP ProLiant DL370 (4U rack optimized chassis) and the next generation of the HP ProLiant ML370 (expandable tower chassis) deliver industry-leading management tools, leading performance, expandability, flexibility, and the latest energy efficient technologies. These servers have been optimized for virtualization and consolidation environments and are well-suited for deployment in growing businesses, remote office sites, or data centers and have been designed to bring you (our customer) the utmost confidence to run your business.

Enhanced performance

The HP ProLiant DL370 G6 and the HP ProLiant ML370 G6 promise to deliver enterprise-class performance. Both of these servers come equipped with Intel® Xeon® 5500 series processors delivering in some cases up to twice the level of computing performance. The new DDR3 memory technology offers twice the bandwidth, double the capacity and 25% less power, and since both of these servers support 18 DIMMs slots customers can achieve up to 144 GB of DDR3 Registered memory. Both the HP ProLiant DL370 G6 and the HP ProLiant ML370 G6 include the new generation of HP Smart Array Modular Controllers delivering 200% greater performance and 100% backward compatibility.

Configure an optimized server in half the time—with the confidence to know it's right. Use ProLiant Solution Blocks and HP configuration tools co-designed and validated with leading software vendors, and their energy efficiency leadership.

Improved power management

Struggling to get your soaring power bills under control? Not only does the right-sized ProLiant Power Supplies help reclaim lost data center power, but the Intelligent Power and Cooling Savers can tell when power is being wasted. Correspondingly, you get to improve your IT architecture's capacity up to 3x with Dynamic Power Capping, which is available as part of Insight Control suite. In addition, the Intel 45 nanometer technology and dynamic resource scaling further enables more efficient power management.

Supporting the High Efficiency Power Supplies, both the HP ProLiant DL370 G6 and the HP ProLiant ML370 G6 make sure that there is minimum power wasted. Improved power efficiency enabled by HP ProLiant Common Slot Power supplies (460W & 750W)¹ and HP ProLiant Common Slot Power supplies (1200W)² has earned the servers various energy saving certifications.

Deploy easily, manage seamlessly

The ProLiant portfolio of deployment tools, such as SmartStart, Pre-Boot Execution Environment (PXE), Array Configuration Utility (ACU), and ROM-Based Setup Utility (RBSU) enable a hassle-free set up. Then, the HP ProLiant Onboard Administrator and HP Systems Insight Manager give you the flexibility to manage and monitor all your HP ProLiant DL370 G6 and HP ProLiant ML370 G6 servers seamlessly, from anywhere, anytime, making it a perfect fit for remote deployments.

Enterprise-class redundancy features

Business continuity is a must for businesses, big and small. Intolerant to downtime as your business is, you can count on the HP ProLiant DL370 G6 and the HP ProLiant ML370 G6 to deliver 24/7 accessibility

and best-in-class data integrity. There are three hot plug fans that are offered standard with every system, for full redundancy features you can purchase the HP DL370 G6 and ML370 G6 redundant fan kit. Combined with this is the availability of two processors and support for redundant power supplies delivering high availability and high performance system processing.

Maximum flexibility

As mentioned earlier support for the PCI-Express Gen2 slots (nine available) coupled with the 8-bay drive cage provide room for expansion. Another outstanding feature is the flexibility of the tower models to convert to rack configurations, hence lending your infrastructure additional deployment flexibility.

Optimize system performance and ease of serviceability

With its inherent features that optimize business outcomes and facilitate ease of serviceability, the HP ProLiant DL370 G6 and the HP ProLiant ML370 G6 rank at the top of TPC-C benchmarks for performance. Feature enhancements like nine available PCI-Express Gen2 slots, 18 DIMM memory slots supporting Advanced ECC, mirroring mode, and lock-step mode give these two servers a visible competitive advantage. For tool-free internal serviceability, snap on quick deploy slide rails included with rack models and tower-to-rack conversion kits. They enable rapid installation and save valuable time.

¹ Meet Climate Savers Computing Initiative GOLD, ECOS Consulting 80PLUS GOLD and the standard specifications for Energy Star for Servers Power Supply requirements

² Meet Climate Savers Computing Initiative Bronze, ECOS Consulting 80PLUS Bronze Power Supply requirements

Ideal environments

A variety of environments from corporate work groups to critical remote sites

With its large internal storage capacity—accommodating everything from Web applications to databases—24/7 accessibility and ease of serviceability, the HP ProLiant DL370 G6 and the HP ProLiant ML370 G6 are both the ideal choice for virtualization and consolidation environments spanning across corporate work groups to critical remote sites.

Growing businesses with expandability requirements

Designed to meet the requirements of growing businesses, the HP ProLiant DL370 G6 and the HP ProLiant ML370 G6 have nine available I/O slots that support PCI-Express Gen2. And what about storage capacity, you may ask. Put your fears to rest as the 8-bay standard drive cage provides up to 2.4 TB of storage (8 x 300 GB).

Critical remote sites

You need not worry about connectivity/performance when you are working in a remote location. The new HP ProLiant Onboard Administrator and HP Systems Insight Manager (SIM), make sure that you get enterprise-class management features, therefore best-in-class availability and uptime for critical applications.

Options include

- Easy tower to rack conversion in the case of the HP ProLiant ML370 G6, which includes a tower to rack conversion kit
- USB 2.0 Support—five total USBs; two front, two rear and, for security purposes one internal
- Up to 24 Small Form Factor drives and up to 14 Large Form Factor drives
- Hot plug fans and power with optional redundancy
- High performance models with a 2nd processor, SAS controller, extra memory, redundant fans, and power supplies
- HP Insight Control suite helps you deploy servers rapidly, proactively monitor system health and performance, optimize power consumption, and take total remote control of your infrastructure

HP Financial Services

HP Financial Services provides innovative financing and financial asset management programs to help you cost-effectively acquire, manage, and ultimately retire your HP solutions. For more information on these services, contact your local HP representative, or visit: www.hp.com/go/hpfinancialservices

HP Services

When Technology Works. Business Works.

The challenge of virtually every IT organization is similar: To develop and maintain an agile, efficient server infrastructure that delivers the service levels your business needs. HP Technology Services offer a comprehensive portfolio of HP Care Pack Services to help design, deploy, manage and support your IT environment.

Minimum Recommended HP Care Pack offerings

- Three-year, same business day 4-hour response onsite 24-hour x 7-day coverage, hardware support
- Integrated hardware plus operating system installation and startup

Enhanced service level Care Pack offerings

- **Three-year Support Plus 24:** Integrated 24x7 hardware and software operating support
- **Proactive Select:** Access to HP best-in-class technical consultants. Purchase service credits and obtain expertise when needed

Benefit from HP Care Pack Services helping you:

- Reduce deployment time and manage ProLiant server solutions smoothly and efficiently
- Increase uptime and performance of servers availability to your business
- Detect, diagnose, and repair problems to quickly save time, money, and resources

Processor and Memory	
Processor type	Intel® Xeon® 5500 series processors
Available processors	Quad-Core Processors Intel® Xeon® Processor X5570 (2.93 GHz, 8 MB L3 Cache, 95W, DDR3-1333, HT, Turbo 2/2/3/3) Intel® Xeon® Processor X5560 (2.80 GHz, 8 MB L3 Cache, 95W, DDR3-1333, HT, Turbo 2/2/3/3) Intel® Xeon® Processor X5550 (2.66 GHz, 8 MB L3 Cache, 95W, DDR3-1333, HT, Turbo 2/2/3/3) Intel® Xeon® Processor E5540 (2.53 GHz, 8 MB L3 Cache, 80W, DDR3-1066, HT, Turbo 1/1/2/2) Intel® Xeon® Processor E5530 (2.40 GHz, 8 MB L3 Cache, 80W, DDR3-1066, HT, Turbo 1/1/2/2) Intel® Xeon® Processor E5520 (2.26 GHz, 8 MB L3 Cache, 80W, DDR3-1066, HT, Turbo 1/1/2/2) Intel® Xeon® Processor E5506 (2.13 GHz, 4 MB L3 Cache, 80W, DDR3-800) Intel® Xeon® Processor E5504 (2.00 GHz, 4 MB L3 Cache, 80W, DDR3-800) Intel® Xeon® Processor E5520 (2.26 GHz, 8 MB L3 Cache, 60W, DDR3-1066, HT, Turbo 1/1/2/2) Dual-Core Processors Intel® Xeon® Processor E5502 (1.86 GHz, 4 MB L3 Cache, 80W, DDR3-800)
Processor core	Quad-Core and Dual-Core Processors
Processor cache	8 MB (1 x 8 MB) Level 2 cache NOTE: All processor models except for those identified below. 4 MB (1 x 4 MB) Level 2 cache NOTE: For processors E5506/E5504/E5502
Max Processor speed	2.93
Multi-processor	2
Memory type	PC3-8500R DDR3 Registered (RDIMM) memory, operating at 1066 MHz PC3-10600E DDR3 Unbuffered (UDIMM) memory, operating at 1333 MHz
Standard memory	Standard (Performance Models)—12 GB (6 x 2 GB) RDIMM Standard (Base Models)—6 GB (3 x 2 GB) RDIMM Standard (Entry Model)—4 GB (2 x 2 GB) UDIMM
Max Memory	144 GB RDIMM 24 GB UDIMM
Advanced memory protection	Advanced ECC, Mirroring mode, Lock-step mode
Storage type	Hot plug 2.5-inch SAS/SATA Hot plug 3.5-inch SAS/SATA
Max number of hard drive	24
Max number of hard drive note	Supports (24) 2.5" Small Form Factor or (14) 3.5" Large Form Factor Hard Drives
Expansion slot	9 Available PCI-Express Generation 2 slots
Storage controller	HP Smart Array P410i Controller
Deployment	
Form factor	Rack or Tower
Rack height	4U
Networking	HP NC375i Quad Port Multifunction Gigabit Server Adapter
Infrastructure management	HP ProLiant Onboard Administrator powered by the HP Integrated Lights-Out 2 HP Insight Control suite with new Dynamic Power Capping technology
Redundant power supply	Optional
Redundant fans	Optional
Warranty	3-year parts/3-year labor/3-year onsite

Technology for better business outcomes
